SIZE AVAILABILITY

Gauge and length combinations

GAUGE	AVAILABLE LENGTHS
14G	1.0" 1.25" 1.5"
12G	1.5" 2.0" 2.5"
10G	1.0" 1.5" 2.0" 2.5"
8G	1.0" 3.0" 3.5"
5G	4.0" 4.5" 5.0" 6.0"

PRODUCT DETAILS

FORMATS

Common wire nails / Collated wire nails

HEAD TYPE

Round and flat

MATERIAL GRADES

SAE 1008 / SAE 1012

SPECIAL REQUIREMENTS

Other grades subject to requirement and confirmation

QUICK SIZING GUIDE

Gauge

Tells you the thickness or diameter of the nail shaft. Lower gauge numbers mean thicker nails; higher numbers mean thinner nails.

Length

Tells you how long the nail is, measured from beneath the head to the point. Choose the length according to the materials being fastened.

TYPICAL APPLICATIONS

Construction | Wooden pallets | Slab form-work | Timber and general fastening
